

Prachi Singh Rawal

Software Engineer | Java | Spring Boot | Microservices | React | Kafka

Bengaluru, India | +91 7389341497 | prachi.21rawal@gmail.com | LinkedIn

Professional Summary

Software Engineer with **3+ years of experience** building applications using **Java, Spring Boot, Microservices, REST APIs, React, SQL, and cloud technologies**. Experienced in **Kafka, distributed systems, CI/CD, Docker/Kubernetes, security, performance optimization, and Azure OpenAI**.

Skills Summary

Languages: Java, JavaScript, TypeScript, SQL

Backend: Spring Boot, Spring Security, Spring Data JPA, Hibernate, REST APIs, Microservices

Cloud & DevOps: AWS, Azure, Docker, Kubernetes, Jenkins, Git, CI/CD

Frontend: React.js, Angular

Data & Messaging: MySQL, PostgreSQL, Redis, Apache Kafka

AI: Azure OpenAI, LLM Integration, Prompt Engineering

Experience

Accenture

Associate Software Engineer

Bengaluru, India

Oct 2024 – Present

- Designed **15+ Java/Spring Boot microservices** with **REST APIs and JPA**, reducing API response time by **35%**.
- Built **React.js dashboards** and reusable UI components using **JavaScript/TypeScript**, reducing page-load time by **40%**.
- Architected a **Kafka-based event-driven pipeline** for asynchronous claims and notification processing.
- Integrated **Azure OpenAI** for automated claims summarization and **LLM-based output generation**.
- Containerized services with **Docker/Kubernetes** and automated Azure deployments using **Jenkins CI/CD**, reducing releases from **2 weeks to 3 days**.
- Optimized **SQL queries** and introduced **Redis caching**, reducing database load by **25%**; performed debugging, **root-cause analysis**, security, and production support.

Cisco Systems

Software Engineer

Bengaluru, India

Sep 2023 – Sep 2024

- Developed **Java/Spring Boot microservices** for real-time network telemetry and device monitoring.
- Optimized **MySQL schemas and query logic**, improving device-inventory performance by **30%**.
- Automated log archival with **AWS S3/Lambda** and established **Git/Jenkins CI/CD pipelines**.
- Implemented **OAuth 2.0, Spring Security, and role-based authorization** across services.
- Developed an **NLP-based semantic search solution** using vector retrieval, improving search accuracy by approximately **40%**.

Persistent Systems

Software Developer Intern

Pune, India

Dec 2022 – Jun 2023

- Shipped features and fixed defects in **Java enterprise applications**, supporting production stability.

Projects

Event-Driven Order & Payment Platform | Java, Spring Boot, Kafka, PostgreSQL, Redis, Kubernetes

- Built **Order, Payment, Inventory, and Notification services** with Kafka events, Redis caching, and PostgreSQL transactions.

AI-Powered Claims Processing Platform | Java, Spring Boot, Kafka, React, Azure OpenAI

- Built an **asynchronous claims workflow** using Kafka and Azure OpenAI for claim summarization.

Distributed Job Scheduling Platform | Java, Spring Boot, Kafka, Redis, PostgreSQL

- Built a **distributed scheduler** with worker services, retries, failure recovery, Redis locking, and Kafka events.

Education

Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV), Bhopal

B.Tech, Computer Engineering

2022

CGPA: 8.75/10

Certifications

- Oracle Certified Java SE 21 Developer
- Microsoft Azure Fundamentals (AZ-900)
- Cisco Certified Network Associate (CCNA)
